Have your say on emotional wellbeing support for young people

The local NHS wants to find out what young people want and need when it comes to support with mental wellbeing. We want to hear from children, young people, parents, carers and adults about how they want this support to be provided.

Views can be given by completing a short survey. The survey is anonymous, but views will be used to help the local NHS create the right services.

Children and young people

survey: <https://www.smartsurvey.co.uk/s/WFwellbeing/>

We will share with you a link to the parents, carers, families survey when made available.

People can also text/ring their comments to 07970 204 924 or email wakccg.engagement@nhs.net.

We would appreciate if you could please share this survey link with young people, families and carers that you support or who may be accessing your services.

Attached are few useful documents:

- Details of online sessions that will run alongside the survey.
- Suggested social media messages and a graphic to spread the word digitally.
- Word version of the survey is also attached if this is useful. Any hard copy surveys can be returned to FREEPOST NHS WAKEFIELD CCG free of charge.

The feedback we get will really help us to know how to make the services fit for what young people need and inform how services are provided across Wakefield. The survey will close on 18 July 2021.

Thank you in advance for your support.
