A message from Wakefield Council:

Like many councils, Wakefield needs more people to become foster carers. That's why we're so excited to **launch our new 'This is Family. This is Fostering' video Friday 15/10/21.**

This features normal family life scenes alongside voice overs of people giving their account of family life, but only at the end do we reveal that the people

featured are foster carers and their respective families.

By doing this we hope to highlight how fostering involves the same experiences and emotions as other family types and encourage less people to 'self-opt' out of fostering, and reduce the preconceptions.

So, please help us promote the video far and wide by watching and sharing our social media posts on...
